Summary

Full Stack Developer with a passion for solving problems. I recently completed Lambda School, a 12-month Full Stack coding academy. During my free time, I love to go hiking, camping, fishing, and attend local meetups. I am available for fulltime employment and can start immediately.

Skills

- **Front End:** HTML, CSS, LESS, Bootstrap, JavaScript, React, Redux, Responsive Design
- **Back End:** REST, NodeJS, Express, SqLite3, Postgress, MangoDB, Jest, Python
- **Others:** Linux, SQL, HP Quality Center, HP UFT, LoadRunner, Jira, MS Office
- **Tools:** GIT, Heroku, Ziet, VS Code

Projects

Live in the Best Place   **liveinthebestplace.netlify.app**   **Nov 19-Jan 20**

Tech Stack: | React | Redux | Jest| MongoDB | NodeJS | Express
- The app "Live in the Best Place" helps users find the best location to live based on their preferences.
- Collaborated with a group of 14 developers - Front End, Back End, UX, iOS, and Data Science on a 3 month long build.
- Built a fully functional Back-End with two other developers and collaborated cross-functionally with a team of iOS developers, Front-End Developers, and Data Scientists.
- Created REST endpoints, database table and seeds, storing backups and replications, integrated third-party services, wrote unit and integration tests.

SIXR Remote   **mympydreamers.netlify.com**   **Aug 19-Sep 19**

Tech Stack: | React | Redux | NodeJS | Material UI | Express | Postgress
- The app "Mympy Dreams" is a marketplace where individuals can create a profile and post their project and needs and find funding from the Mymphy Dream community.
- Created a crowdfunding React/Redux application under the VR company SIXR with a team of 7 developers- Front End, Back End, UX, iOS
- Implemented third party APIs: auth0, Cloudinary, Stripe
- Built CRUD REST APIs, designed tables, database seeds and middle-ware for the application.
- Implemented create and edit dreams page. updated CSS and HTML to make sure the website was looking as per UX design, wrote unite and integration tests.

Employment

Software Tester   **uTest Remote**   **July 16 - Dec 18**
- Analyze application requirements, specifications, and test results for the eCommerce website.
- Developed and executed test cases for functionality and regression testing.
- Validated defects and updated defect status update in defect tracking system.
- Performed testing of GUI consistency against different browsers like Chrome, IE, Firefox and in various screen like iPhone, Desktop, iPad, etc.

Education

Lambda School | Remote   **2020**
- Full Stack Web Development And Computer Science

Tribhuban University | Nepal   **2011**
- Business Studies, Bachelor of Business
